

# MAMMALIA

Editor

Michael Prince, LM 868

Among the 6 new species in this selection is the third of the Douc Langur species, which means that all 3 have now definitely appeared on stamps. There was originally only one species, but this has now been split into 3 and, as with other instances, I have not as yet got around to checking back on earlier stamps depicting the single species, in order to see which of the new species is depicted. I shall hopefully get around to this at some stage and provide an updated identification list of mammals that were once listed as single species.

<b>BENIN</b>	2003 December 19, Monkeys.		
1308,1312,1314	50f,400f,600f Red-bellied monkey <i>Cercopithecus erythrogaster</i> Cercopithecidae
